RE: Closure of DOGM File, Paul Schofield, Prince Mine, S/037/067, San Juan County, Utah

The Prince Mine project mining notice was listed as abandoned by the BLM on 4/98 and their file was closed. The BLM originally inspected and closed this site on 3/16/92 and noted that the reclamation was satisfactory. On 5/15/92 an amendment was filed to re-open the file. No inspection of the site was made by Division personnel. On 4/98 the BLM listed the amended mining notice as abandoned. The Division agrees to close this file at this time.

Note to file: The database showed this project with BLM & State lands involved. We contacted SITLA and there has never been state lands involved with this site. The database records have been corrected.

The file should remain on the abandoned claim list for future reference.
